(The actual page may show some different features)

B. Search for courses using the major search or using the keyword search feature.

# C. After clicking on the "Apply" button or 'Course Code-Sec.-Lab', input the amount of mileage.

※ Display of Credits Applied

The Sum of Total Credits Applied (Sum of all credits within the maximum credits constraint)

The followings are the cases when the application will not work.

- 1) The mileage point is not within the range between 1~36.
- 2) The mileage allocated to a course exceeds remaining mileage.
- 3) The sum of credits exceeds the limit of credits per semester (excluding special courses such as chapel).
- 4) The course hours overlap with a previously applied course.
- 5) The same course code has been already applied.
- 6) When the quota by each grade is '0' or when a student not in the major enrolls for a course that has a major student quota equal to the total quota.

#### ※ (Mileage System) Application Status

The current application status is not the final course enrollment.

This application data has to be confirmed according to mileage point and priority.

If the allocated mileage is same, the priority is given according to the following conditions

- 1) The mileage a student allocated for a course
- 2) Whether the Student is subject to special education
- 3) Conformity to major designated by the department offering the course
- 4) Number of Courses applied (For practicality, up to 6 courses will be considered and exceptional courses (chapel, volunteer activities, junior seminar, RA leadership, RC self-disciplinary activities etc) are not counted)
- 5) If the student applied for graduation
- 6) First time enrolling to the course (not repeating)
- 7) Total number of credits earned/required for graduation (Max: 1.00)

\* Total credits of general transfer = Transferred credits + Earned credits
 \* Total Credits of Undergraduate transfer OR Exchange student = Standard credits

- per year +Earned Credits
- 8) Credits earned in the previous semester/maximum credits per semester (Max: 1.00)

× Information about Wish List

If you click on "Wish List" button and put mileage, the course you chose will show up on your wish list. The wish list lasts until the end of Add & Drop Period.

If you use the wish list feature to save courses, you do not need to search them again. So it is recommended to use Wish List for your convenience during the Wait List System period(including the Additional Enrollment Period and Add & Drop Period) when a quick decision is needed.

※ Information about repeating course

The repeating course can be registered during all the course enrollment period including the Add & Drop period. When applying for a course that was already enrolled in the past, the system will automatically register it as a "Course Repeat"

1. For students who have limitations for 'Course Repeat' (students admitted in 2005~2007, 2013) a pop up will come out as the following.

제수강횟수 사용 선택	×
학정변호·분반-실습	
과목명	
현재까지 재수강사용횟수 2	-
<b>횟수사용 선택</b> 재수강횟수 사용안함	
다음 경우는 '재수강횟수 사용안함,이 기본값이므로 반드시 확인하시기 바랍니다. ① 2013학번 이후 F, NF학점에 대해 재수강을 하는 경우 ② 05-07학번이 C.D.F학점에 대해 재수강을 하는 경우	
확인 취소	

(Above image may be different from the actual pop-up screen)

The number of repeats applied on the above image will be reflected in the Notes and is displayed as "Use Number of Repeat Allowed" or "Do Not Use Number of Repeat Allowed" By clicking a tab for change in the application section, you may change the conditions.

2. For students who are not related to the number of course repeat, the 'Repeat' will show in the application status.

- D. To cancel an application or delete a course, click the "Cancel" button in the application status.
- E. In case your mileage points are not sufficient for applying for a new course, you can change the mileage point in courses that you have previously applied by clicking the "Change" button.
- F. Log out after checking if there is any mileage left and reviewing courses that you have applied to all desired courses.
- 2. Notification: Course Enrollment Results
  - A. A list of successful (enrolled) and unsuccessful (Waiting List) students will be shown according to a rank calculated based on a student's mileage and priority.
  - B. In case when a student is unsuccessful, the waiting number will be shown so the student can decide if he/she wants to stay on the Waiting List or apply for other courses.
  - C. During this period, you can't register a course but can only add courses to a wish list.
  - D. Example

(The actual page may show some different features)

- 3. Additional Course Enrollment Period
  - A. Mileage is no longer used during this period and students will be queued according to the waiting number depending on the placement results. (Waiting number will be determined based on the mileage that were allocated to the course)
  - B. For courses with vacancy, students may enroll in the course freely within the total student capacity.
  - C. If a student is applying for courses that do not have a vacancy, waiting numbers will be given on a first come first serve basis.
  - D. If there are students in the waiting list already, then the new waiting numbers will be given out after the last number in the list.
  - E. If an enrolled student decides to drop the course, the student on the Waiting List will be enrolled into the course based on the order of the waiting number. (Waiting list will be renewed regularly)
  - F. During this period you can freely change the items in the enrolled (success) /wait list (fail) page. However the sum of enrolled and wait listed cannot exceed the total credits allowed per semester, therefore in order to register for other courses have to cancel some of the enrolled or wait-listed courses to secure mileage.
  - G. It is not allowed for a student to apply into a course which he is already wait-listed because of the same course code. Note that, if he were to cancel and re-apply, he will be put after the last person in the waiting list.
  - H. Example

- 4. Add and Drop Period
  - A. During the Add & Drop Period, all the existing Waiting List will be initialized and new waiting lists will be created with new waiting numbers. (This gives a new opportunity for students who had low priority)
  - B. Procedures of the Waiting List system is the same as that of additional enrollment period.
  - C. Students who are either, not on the registration list for the course, or are still on the Waiting List for a specific course, were unsuccessful. Therefore, they should check enrollment status and register for a new course before Add & Drop Period is over.
  - D. Since the students on the waiting list will be enrolled anytime when a vacancy due to changes in student capacity or withdrawal, students must withdraw themselves from the list if they do not wish to be enrolled. (No changes will be allowed once the Add & Drop Period is over)
  - E. Example

- 5. TIPS
  - A. Allocating mileage during the course enrollment period
    - Mileage per semester for a student is 4 times the course load per academic term (available credits per semester). As a result, the average mileage used for a course would normally be the (course credits) x 4. For some courses that have high competition, or courses that are mandatory for a given department or college, students are encouraged to spare high mileage to those courses. However, for courses that have no competition, or those that are allowed to exceed the available number of credits (Holistic Education I, RA Leadership, RC related courses) students are recommended not to allocate mileage unnecessarily.
  - B. Obtaining the good waiting numbers during the additional enrollment period and add & drop period.

The Waiting List system uses the first come first serve method. However the previous first-come-first-serve system created a problem where students had to constantly apply because when an enrolled student cancels the course, the student who applied at the specific moment was enrolled. The new Waiting List system, however, assigns each applicant a number so there is no need for unnecessary

Y-CES (Yonsei Course Enrollment System)

competition between students who already applied for a course and those who are still hoping to apply. Ultimately the Waiting List system still maintain time as a primary factor but assigns a number to each applicant so that there are no duplicate applications by the same student, thus, reducing the delay in the server. If you feel that your waiting number is unlikely to get a spot, it is recommended to apply to another course or another course with a smaller Waiting List instead of staying in Waiting List with a larger number.

#### 6. Course Inquiries

- A. Inquiries for Enrollment Regulations or Submission of Opinions: Academic Support Team, Office of Academic Affairs, 02-2123-2090, <u>yshaksa@yonsei.ac.kr</u>
